

The Return (crease pattern) by Mike Case

Design and crease pattern ©2009 by Mike Case)

The blank lower left corner ends up folded over, so it is the reflection of the creases on the other side of the 45° line. A 10" square will make a model about 3.5" long. Use paper which is white or grey on one side (for the tombstone and arm), and brown or black on the other (for the cross and grave).
